

The Next Step Resource Center

Vision Statement

Making the move from missteps to the Next Step is the holistic engagement of spiritual wellness and individual self-sufficiency.

Our vision demonstrated through the exhortation: "Helping Others to Help Themselves."

Mission Statement

TNSRC is a faith-based community outreach link and resource program, designed to connect individuals with basic life sustaining and transition support systems. This includes veterans, individuals exiting incarceration, the homelessness, the jobless, the addicted, the abused and individuals with significant barriers to employment. Our core values exemplified through the belief that "No one ever achieved any measure of success in life, but for the willingness of others to lend a helping hand."

Our primary mission is directed at maintaining the dignity of the individual by providing a hand up rather than a hand out.
